SUMMARY

Innovative Full Stack Developer and Computer Science graduate with strong expertise in software engineering, artificial intelligence, machine learning, and web application development. Experienced in building scalable digital solutions, AI-powered systems, and responsive user interfaces using modern technologies. Demonstrates strong analytical thinking, problem-solving capabilities, and technical leadership while delivering high-quality solutions that support business objectives and digital transformation initiatives.

EDUCATION

Bachelor's Degree in Computer Science

2026

Prince Sattam bin Abdulaziz University

ACADEMIC PROJECTS

PresenSee – Smart Attendance Tracking System (Graduation Project)

2025 – 2026

- Developed an intelligent attendance verification platform integrating facial recognition technologies and GPS validation mechanisms to ensure accurate trainee identification.
- Designed supervisor dashboards providing real-time attendance analytics automated reporting capabilities and actionable insights supporting institutional decision-making processes.
- Implemented backend services databases and system integrations ensuring secure attendance management workflows and efficient operational performance across environments.

Bilingual RAG Chatbot – PSAU Student Assistant

2025 – 2026

- Developed an Arabic and English conversational assistant utilizing Retrieval-Augmented Generation architecture and institutional knowledge sources for accurate responses.
- Engineered advanced prompting techniques reducing hallucinations while ensuring generated responses remained aligned with verified organizational information sources.
- Integrated language models retrieval systems and cloud deployment solutions delivering accessible student support services across digital platforms.

Innovation & Entrepreneurship Club, King Saud University

2025

- Led the technical development of the official digital platform for the Innovation and Entrepreneurship Club affiliated with the Entrepreneurship Institute at King Saud University.
- Designed and developed the complete platform using Dart and Flutter Web, delivering a responsive mobile-first experience across devices.
- Developed digital solutions supporting club initiatives events workshops and entrepreneurship-related resources.
- Enhanced user engagement by delivering intuitive navigation structures and optimized web experiences supporting diverse stakeholder interactions effectively.

Digital Platform Development

2025

- Led frontend development activities translating business requirements into responsive interfaces supporting seamless digital experiences across multiple devices.
- Managed design implementation workflows ensuring consistency usability and performance optimization throughout platform development and deployment phases.

Machine Learning Classification and Data Analysis Pipeline

2024

- Built supervised machine learning models utilizing advanced preprocessing techniques feature engineering methodologies and performance evaluation frameworks.
- Applied statistical analysis and predictive modeling approaches generating reliable insights supporting data-driven decision-making processes effectively.

CERTIFICATIONS

Raspberry Pi Training Program – Tuwaiq Academy | 2025

- Intensive practical training covering Raspberry Pi fundamentals, hardware integration, embedded systems concepts, device configuration, automation workflows, and real-world implementation of computing and engineering solutions.

CORE SKILLS

- Languages:** Arabic, English.
- Technical Skills:** Python Programming, Java Development, JavaScript Development, C++ Programming, SQL Databases, Full Stack Development, Frontend Development, Backend Development, REST API Development, Software Testing, Machine Learning, Prompt Engineering, Data Analysis, Git Version Control, Cloud Technologies.
- Soft Skills:** Analytical Thinking, Problem Solving, Critical Thinking, Communication Skills, Team Collaboration, Time Management, Project Coordination, Adaptability, Leadership Skills, Presentation Skills, Decision Making, Attention to Detail.
